CONFIDENTIAL INVESTMENT OPPORTUNITY

Project Savor

A LEADING OMNICHANNEL FOOD DISTRIBUTION PLATFORM IN THE PHILIPPINES

[STRATEGIC INVESTMENT]

MARKET CONTEXT

The Philippines meat market is valued at **US$10.5B (2023)**, projected to reach **US$12B by 2028** at a **2.7% CAGR**. The market is highly fragmented, with most volume flowing through wet markets and small-scale distributors without scale in sourcing, logistics, or cold-chain.

Growing urbanization, rising incomes, and the shift toward modern trade create a consolidation opportunity for scaled, cold-chain-enabled platforms.

5.7%	+20%	10-15%
GDP GROWTH	MEAT IMPORTS YOY	COLD-CHAIN GROWTH/YR

INVESTMENT HIGHLIGHTS

01 Consolidation opportunity: positioned to capture share from informal operators who lack cold-chain infrastructure, sourcing scale, and logistics reach.

02 Operational moat through end-to-end control, from import sourcing and processing through to last-mile delivery, creating high barriers to replication.

03 Capital-constrained, not demand-constrained: growth is limited by working capital, not market access. Investment directly accelerates revenue.

04 Multi-layered diversification across products (beef, pork, poultry, seafood), client segments, and distribution channels reduces volatility and concentration risk.

COMPANY OVERVIEW

A vertically integrated food importer, processor, and distributor with 11+ years of operating history. The company serves hotels, restaurants, supermarkets, and institutional buyers through a B2B-dominant model. Revenue grew 56% to ₱648M in 2024 and surpassed ₱1B in 2025, confirming strong scale-up momentum.
