RARE GLOBAL FOOD

Leading omnichannel food distributor in The Philippines

RARE GLOBAL FOOD

Founded
2013

HQ
Manila, PH

Food & meat distributor
B2B, B2C partnerships, in-store butchery

2025 revenue
>PHP 1 Billion

Rare Global Food is an omnichannel distributor that imports, processes, and delivers meats and food products through a cold chain-enabled nationwide network. A hybrid third-party logistics + in-house delivery model enables reliable service with flexible, scalable coverage.

Philippines meat market

US$10.5B in 2023 → **2.7% CAGR** → **US$12.0B** by 2028

Filipinos consume ~3.5 MMT of meat every year

- **Large and formalizing market, still fragmented:** meat distribution remains dominated by wet markets and small distributors.
- **Lack of scale:** many players have limited advantages in sourcing, logistics, warehousing, and brand development.
- **Clear consolidation opportunity:** scaled, integrated import-processing-distribution platforms can win on margins, sourcing power, and reliability.
- **Tailwinds support growth:** economic expansion, record meat import volumes, and increasing cold-chain capacity that expands reach and reduces shrink.

Why Rare wins

Rare wins by controlling the complete value chain: sourcing, cold storage, processing, delivery, and collections.

- Dual sourcing (overseas + local) to balance cost & supply
- ↓ Cold-chain intake + warehousing: customs, QA, staging
- ↓ Value-add processing: portioning + pack-to-spec; private-label ready
- ↓ Hybrid logistics: 3PL + in-house fleet; routes + SLAs
- ↓ Multi-channel sales + collections: B2B/B2C mix, recurring cash flows

Channel mix
